Education

Emilio Aguinaldo College | Bachelor of Science in Computer Science
Data Engineering Pilipinas (DEP) Scholar

August 2023 –
Present

Certifications: IBM Python for Data Science, AI & Development, IBM Developing iOS, Android, and Mobile Apps
Dean's Lister — *A.Y. 2023 – Present*

Experience

Eskwelabs | Python, Data Science / Analysis, Automation

Remote

Technology & Innovation (EIF) Intern

Oct 2025 – Dec 2025

- Selected as a fellow in Eskwelabs' Education Innovation Fellowship (Cohort 8), one of the **top AI & data programs** in the Philippines. Contributed to data-driven initiatives supporting 100+ learners across online bootcamp programs.
- Built an **n8n** automation pipeline that **cut manual content creation time by 5+ hours/week**, auto-generating branded event posters and announcements across 3 digital platforms.

Team Fridays Marketplace

Remote

Video Editor

June 2025 – March 2026

- Produced **10+ short-form reels per month** for TikTok and Instagram, contributing to a **40% lift in post engagement** and consistent follower growth. Delivered video edits **across 3 social platforms with 100% on-time turnaround**; applied trending hooks and formats to maximize watch-through rate.

PROJECTS

Hatid Amadeo — Ride-Hailing Platform

December 2025 - present

Lead Developer

- A production-grade, three-platform ride-hailing system for Amadeo, Cavite — a municipality of **41,901 residents** across **26 barangays** with limited digital transport options. Connects riders and drivers in real time through **Flutter mobile apps** backed by a **Python/Flask API** and **Firestore**, featuring a fully working **in-app wallet** with **PayMongo cash-in integration**, **dynamic surge pricing** auto-scaled by barangay demand, and a live **Next.js admin dashboard** for fare management, driver operations, and transaction monitoring.

Silangan Scents — E-Commerce & AI Scent Finder

2026

Full Stack Developer

- Built a **full e-commerce SaaS** for independent perfumers — product catalog, cart, multi-payment checkout (GCash, Maya, COD), and an AI Scent Finder recommending products via mood and note inputs; targeting **3,000+ fragrance businesses in the Philippines** that still rely entirely on in-store sales.

What Runner Are You? — Strava API Integration

2026

Full Stack Developer

- Built a **Strava OAuth**-integrated web app that analyzes real GPS run data (pace, schedule, elevation) to classify users into **8 runner personality archetypes** — read-only OAuth, zero data storage, personalized profile with a roast line.

The Busy Bean — Client Coworking Cafe Website

2026

Full-Stack Developer

- Marketing and operations site for a **real coworking cafe in Dasmariñas, Cavite** — menu showcase, Mailchimp email subscriptions, and a password-protected admin dashboard backed by Supabase. **Owners can live-edit** menu items with image uploads, manage their subscriber list (CSV export, one-click Gmail blast), and track site visit counts — all without touching code.

Leadership & Activities

Emilio Aguinaldo College Chorale Secretary

A.Y. 2023 - Present
